

*We're working to make  
the world better...*

The Garlic Box™ is aligning itself with initiatives to build environmental sustainability into the way we do business. It is clearly in our best interests to do business in a way that preserves our resources.

Use a 100% bio-degradable loose fill to ship your orders made from corn. Is water soluble and does not pollute ground water. Cost is 33% less than polystyrene loose fill. *Result* - more than 4,000 cubic feet of landfill was spared in 2008.

Printed material is on 100% recycled paper that is recyclable, including ad, promotional, literature and administration uses.

Paper board packing cartons made from 100% recycled paper and recyclable will replace existing packing cartons.

The Garlic Box™ is a corporate member of the World Wildlife Fund to support Canada's course in the investment of clean energy solutions. WWF Canada is a federally registered charity.

*"We will continue to build on our efforts to protect the environmental values needed for a healthy future".....Jackie Rowe*
