

Garlic Canine Cookies

Ingredients

- 1 pkg. **Garlic Canine Cookie Mix**
- 1 egg

Directions

Pour package contents into a medium/large bowl. Add 1-1/2 cups of boiling water plus 1 eggs lightly beaten. (If mixture is too dry to knead into a ball, add a little more water.) Mix well.

Knead into a ball, flatten to 3/8" on a floured board. If dough is sticky, sprinkle with a little more flour. Cut into shapes using a sharp knife or floured cookie cutter.

Bake 375°F on a cookie sheet for 20-25 minutes or until dry and firm. Cool completely & store loosely in cookie box or paper bag in a dry place. Cookies may be frozen.
